

Kremmling Preschool Newsletter

September 18, 2024

PICTURE DAY - Picture day was a huge success! You don't have to wait to see your child's picture, you can now order ONLINE! An order form will be coming home tomorrow. They now offer free gifts and shipping if order is received by September 28th.

Preschool Vision/Hearing Screenings - Due to a scheduling conflict these screenings have been rescheduled for Thursday, September 26th. If you haven't already done so, please return your permission forms. If your child does not normally attend on Thursday's and you would like to have them screen, please see Michele for times you may bring them in to participate. If you have any questions, please reach out. Thank you!

MISS SARA'S SECTION - Hello! It's hard to believe we are already in the middle of September! In the classroom we have been working on letters A-C, numbers 1&2, the shape of a circle and the color red. At lunch the friends are doing great with the rules in the lunchroom, they are also carrying their own lunches to the table! We are very proud of them all. Thank you for everything you do to help us support your little one. We sure enjoy learning with them.

GUEST READER PROGRAM - We are starting our new guest reader program next week! This program is a way for you to get to know us and the preschoolers AND be an important part of their learning. We are enjoying getting to know you all and look to continuing to building relationships. Please see the back of this newsletter for more information and to sign up for a reading time.

FALL IS COMING! - Autumn will arrive this weekend and we are loving this beautiful weather and looking forward to the changing of the leaves. The preschoolers have begun talking about different clothing we wear and why. Please continue to send your child with layered clothing and jackets as our mornings are quite chilly but our afternoons are WARM. Happy Fall Y'all!

HEALTHY FOODS - At the preschool, we encourage healthy eating & hygiene habits through the Healthy Smiles and Cavity Free Kids programs. A large component of these programs are the food we put into our bodies. We are working with the preschoolers to help them to identify the healthy foods in their lunches and how eating items such as their protein and fruits/vegetable first helps them to grow big and strong as well as keep them full for a longer period of time. We would like to invite you to help us reinforce these healthy choices by providing some good protein choices and healthy items in their lunches and snack. If you would like more information about the importance of protein you're your child's growth and development, please go to <https://theactivefamily.org/why-is-protein-important/>
